

## Scarf Rings

are the ruling fad in the East, and are fast becoming so here.

Worn with a handsome silk tie, nothing can be more swell. Swell dressers take to them at sight.

We have a splendid stock of new creations in these rings, from the simple Roman gold band to the elaborate chased and gem-set ring, and at prices varying from six dollars to one hundred and fifty.

We have also just received an unusually attractive assortment of

## Lace and Scarf Pins

In the new "BAROQUE PHARL," which makes the most attractive piece of jewelry imaginable. If you have not seen them, we would be pleased to show them the next time you are in.

In fact, our stock is very full all along the line, and we are in a position to fill every want.

**H. F. WICHMAN,**  
FORT STREET.

## The Days of Tight Belts Are Over Cling-Surface

"CLING-SURFACE" IS A BELT filler, which produces a clean, clinging surface on the belt after it has penetrated the belt, and it is a belt preservative, making and keeping the leather, cotton or rope flexible and elastic, vastly increasing its life. It also acts perfectly on rubber belts.

One-third more power is transmitted by its use, or in other words, a belt two-thirds as large will transmit the power of "Cling-Surface" is used.

Send for a sample ten-pound tin.

Price 50c per lb.

## LITTLE GIANT FIRE EXTINGUISHER

The only chemical fire extinguisher that is ready at any time. Will not deteriorate. No dangerous acids or chemicals in it. Can be handled by a child.

Price \$3 each.

Oceanic Gas and Electric Co.

MANAGER MOANA HOTEL.

**COTTON BROS. & CO.,**  
ENGINEERS AND GENERAL CONTRACTORS.

Plans and Estimates furnished for all classes of Contracting Work.  
Rooms 111, Boston Block, Honolulu.

**BRONCHITIS**  
may mean a mere cold or a chronic incurable inflammation of wind-pipes.

The quickest relief, for a cold, is also the most effectual balm for the worst condition of wind-pipes and lungs.

It takes the edge off a cold in a night, and relieves it progressively—one forgets it after a little.

An old bronchitis, however, is obstinate. Nothing restores the tissues, when once destroyed; and an old bronchitis has gradually impaired and partly destroyed the lining of those small pipes between throat and lungs.

Scott's emulsion of cod-liver oil is the balm; it soothes if it cannot restore.

We'll send you a little to try, if you like.  
SCOTT & BOWNE, 409 Pearl street, New York

YOUR EYES are entitled to the best of care. There is nothing too good for them. Sight is priceless. Glasses sold by us are accurately fitted, not picked out at random. We give each case all necessary time and thought, without piling up the price. We do none but the best work, and the best glasses are the only kind you can afford to wear. We repair glasses promptly and to last.

Blacksmithing, Carriage Painting, Trimming and Repairing, in all its branches.  
Orders by telephone called for and delivered.

## NEARING COMPLETION

**Rapid Transit Cars Will Soon Be Running.**

**NO DATE SET FOR BEGINNING**

**Twenty-Seven Superb Cars of Modern Pattern Will Carry the Public.**

Work on the cars of the Rapid Transit Company is progressing fast. It is the hope of the company to have their line in running order some time next month. Just when the directors do not know they are not trying to have their cars running by a certain date.

Ten or twelve of the cars are up and are in the hands of the painters. They will, when completed, be finished in maroon and straw.

The rolling stock of the company consists of twenty-seven motor cars. Fifteen will seat thirty-two people, ten will seat forty people, while two will be used for trolley parties. These last two will hold something like forty or forty-five occupants, and will be fitted out in superb style.

The twenty-five cars that will be used in the every-day service will be open on the sides and vestibuled at the ends. In order to protect the passengers from rain, curtains will run from the top to the bottom. They will be reinforced with strips of steel every nine inches, which will make them, to all practical purposes, as solid as a fixed wooden side, yet which, when not in use, can be raised out of the way. The curtains can be stopped at any point by means of a spring. The seats, which are unished in hard wood, run crosswise, with a center aisle down the middle of the car. The party cars have side seats and are extra wide.

Every appliance known in modern car building that will contribute to the comfort and the safety of their vehicles has been incorporated into the rolling stock of the Rapid Transit Company. Sand boxes, double brake chains and ratchet handles will enter into the make-up of each car. The motormen will have complete control of the cars, and will be able to stop, back or go forward as easily as though they were handling a toy instead of a huge piece of machinery weighing many tons. The American Car Company of St. Louis, who have the contract, say that the Honolulu order is equal to anything they have ever filled, and that they will stand comparison with any pending orders of their own factory or the work of similar companies.

The cars, when completed, will run over the following route, some six miles in length: The starting point will be in Manoa valley, then through the Punahou district, from there down to Wilder avenue, to Lunaliilo street, from Lunaliilo street to Alapai, from Alapai to Hotel, to Nuuanu stream, over which the cars will pass in a steel bridge, which is being built expressly for the purpose. From Nuuanu stream the line will run to Liliha street and up Liliha to Wyllie avenue.

The curves, crossings and switches are being put in. The boiler is in excellent working order, and the piping which is to conduct water from the artesian well to the different parts of the premises, is all in. The work from now on until it is completed, will be the perfecting of details, some of them so trifling as to seem unworthy of notice to one who is not familiar with the work of such business concerns. The company expects, however, that there will be some hitches in their service when it is begun, and they have wisely concluded to do away with all that are now in sight before opening the way for any more.

## GOING SOUTH FOR A FORTUNE

**Second-Class Passenger on the Ventura Who Has Inherited \$100,000.**

Among the passengers on the Ventura yesterday was Samuel Mayclim, of Red Oak, Iowa, who is en route to Australia, where he goes to claim a fortune of \$100,000. Mayclim is a native of Ireland, and the namesake of his uncle, who made him heir on that account.

Twelve years ago two brothers left the family home in Ireland to seek a fortune in new countries. John Mayclim came to America and settled in Ohio. Samuel went to Australia. The former was not successful, and after a few years gave up his farm and returned to the old country. His son Samuel, better satisfied, though a lad of but fourteen years, remained, and five years ago went to Red Oak, Iowa, to engage in farming. The uncle in Australia was more successful, and died a few months ago leaving an estate worth in the neighborhood of \$100,000. The nephew in Iowa was made his heir, and was notified by the executors of the estate that they had an offer of \$65 per acre for his land, consisting of some 1,200 acres in Victoria, a hundred miles from Melbourne. The boy, instead of accepting, concluded to investigate, and is making the present journey for that purpose. If the field suits him, he intends to work the farm himself, otherwise, he will close out his property and return home.

Mayclim does not appear at all dazzled by his sudden acquisition of wealth. He was but a poor farm hand in Iowa, and is making the trip to

Australia second class, for the reason, as he naively asserts, that he doesn't intend to spend his money before he gets it.

## THE BEST LINIMENT FOR STRAINS.

Mr. H. F. Wells, the merchant at Deer Park, Long Island, New York, says: "I always recommend Chamberlain's Pain Balm as the best liniment for strains. I used it last winter for a severe lameness in the side, resulting from a strain, and was greatly pleased with the quick relief and cure it effected." For sale by Benson, Smith & Co., wholesale agents.

## ARRIVAL OF PROF. JENKINS.

**Comes to Take Dr. Jordan's Work on Fish Commission.**

Prof. O. P. Jenkins of Stanford University, California, came yesterday on the Ventura to take the place of Prof. David Starr Jordan on the United States Fish Commission, the latter returning to San Francisco on the Sierra. Prof. Jenkins is instructor of physiology in the university and has made the subject of fish a special study for some years. He has published several books in connection with his studies along this line which have been received with much favor. Twelve years ago he made a trip to the Hawaiian Islands in which he paid special attention to the fish and other inhabitants of the water and now has in course of printing a book on the subject. "We intend to study the fish of the islands in reference to their scientific and commercial value and the facts will be reported to the United States Government. I expect that the Fish Commission will be occupied for two or three years with their work."

## NO MONEY FOR SCHOOL HOUSES

**Legislative Blunder for Which There is no Visible Excuse.**

The appropriation for the Department of Education, as set forth in the appropriation bill, is quite incomplete. The entire appropriation for school houses on the island of Oahu has been left out. The same is true of certain items for the district of Oahu, on the island of Hawaii. As the appropriation bill passed the two houses, only the new items for the reform school appear.

No provision has been made for the pupils who used to attend the Royal school on Emma street, but who have been occupying the old fumigating warehouse. No appropriation was made for the different school houses on the island which need repairing, and nothing was done for the children of Alea, of whom there are 125, and for whom there are no accommodations whatsoever.

How the items were left out of the bill, no one knows. The members of the Committee who had this in charge, say that it was an oversight, and there is every reason to believe that this is so. The only way to remedy the matter is to have what items appear in the appropriation bill, vetoed by the Governor, and to have this portion of the bill revised by the Legislature. The following items were the ones asked for, and as submitted by the Governor in his estimate:

Oahu (Honolulu)—	
Royal School .....	\$ 75,000
Kalihi-waena .....	17,000
Total .....	\$ 92,000
Oahu (Outside Districts)—	
Alea .....	3,900
Pearl City .....	2,700
Waipahu .....	3,000
Waialua .....	5,000
Teachers' Cottages, etc. ....	2,200
Total .....	\$ 16,800
Total for Oahu .....	\$ 108,800

For the Nerves

## Horsford's Acid Phosphate

Nourishes, strengthens and imparts new life and vigor by supplying the needed tonic and nerve food.

Gives good appetite, perfect digestion and restful sleep

The genuine bears the name "Horsford's" on label.
